

Matrix
by MIDMARK

The **Matrix** Scavenger

The Matrix Scavenger

Scavenging that's simpler and more effective.

Fewer parts –
simpler for you.

Compare it to bulkier, harder-to-use competitive units that have as many as 23 parts to assemble.

Lighter weight – more
comfortable for your patient.

It weighs 50% less than competitive units and that makes a big difference. Your patient is more comfortable and relaxed.

Better performance.

Its lightweight design provides better balance on the patient's face. The result is a better seal formed around the nose ensuring optimal gas delivery and waste gas scavenging. But that's not all...the unique exterior scavenging cone design can remove peripheral waste gas.

**LATEX-
FREE**

The Matrix Scavenger comes with or without an autoclavable hood and vacuum shut-off valve. DynoMite™ scented, disposable nasal hoods can be used with the Matrix Scavenger.

The Matrix Scavenger with a DynoMite Nasal Hood.

*The Matrix Scavenger
beats the competition
every time.*

Compare for yourself:

Model

Number of parts in complete assembled unit

Weight of complete assembled unit

Meets or exceeds the ADA recommended scavenging rate of 45 lpm

Autoclavable Hood

Latex-Free

Disposable Hood

Safe to use –
autoclavable and latex-free.

You can simply autoclave any or all of the 8 parts.
It's that simple!

The Matrix Scavenger with a reusable, autoclavable hood.

For a simple demonstration
(it only takes a minute or two, it's so simple),
call an authorized Matrix Distributor. Or, call the
Matrix toll-free number, **1-800-MIDMARK**.
